Independent Auditor's Report

Compensation/Pension Committee Retirement Plan for the Employees of the Gila River Indian Community

Report on the Financial Statements

We have audited the accompanying financial statements of the Retirement Plan for the Employees of the Gila River Indian Community (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2013, and changes therein for the year then ended, and its financial status as of December 31, 2012, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held as of December 31, 2013, and reportable transactions for the year then ended, are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements December 31, 2013 and 2012

1) Description of Plan

The following description of the Retirement Plan for the Employees of the Gila River Indian Community (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan sponsored by the Gila River Indian Community (the "Community"), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Community is the Plan's sponsor and serves as Plan administrator.

Effective May 1, 2005, the Plan was amended to provide for the transfer of designated Community employees to the Gila River Health Care Corporation (GRHCC), a wholly owned subordinate economic entity of the Community. The amendment provided that transferred employees receive retirement benefits equal to those they would have accrued under the Plan had they continued to be employed by the Community. Assets already accumulated in the Plan will remain and any future salary increases while employed by GRHCC will be considered in determining average compensation. Should a designated employee return to Community employment as a member of an eligible class of employees, they will remain a Plan participant.

Participant's Accounts

Employees become eligible to participate in the Plan when they attain age 21 and complete one year of service. Employer contributions are determined by actuarial requirements. There is no provision for employee contributions or rollovers into the Plan.

Automatic Single Sum Cash Payment

If the participant's vested account balance is \$1,000 or less, a single sum cash payment will be made to the participant as soon as administratively practicable following the termination of employment. If the amount of the participant's vested account balance to be distributed exceeds \$1,000 but is less than \$5,000, the participant will receive the vested account balance in a single lump sum payment once a written application for the benefit has been made.

Vesting

Generally, participants are 100% vested after five years of service or at the normal retirement age of 65, if earlier. Appointed Community officials who are not highly compensated are 100% vested after three years of service or at the normal retirement age of 65, if earlier.

Notes to Financial Statements December 31, 2013 and 2012

Pension Benefits

Vested participants are eligible for retirement benefit payments upon reaching normal retirement age of 65. Retirement benefit payments are based on the sum of 3% of the participant's average monthly compensation plus 3.5% of average earnings in excess of covered compensation multiplied by the number of years of service completed after January 1, 1971, with a maximum of 30 years. There is a minimum monthly benefit equal to \$90 multiplied by the years of benefit service not to exceed five years of benefit service for those who become participants on or after January 1, 2003, and \$450 for those eligible prior to January 1, 2003. The Plan also contains provisions for early retirement and late retirement benefits.

Death and Disability Benefits

Death benefits are available for those participants who are 100% vested in their accrued benefit at the time of death or have already commenced benefit payments. For those participants who had not yet commenced benefit payments, death benefit payments are based upon the employee's accrued benefit. There is a minimum monthly benefit equal to \$90 multiplied by the years of benefit service not to exceed five years of benefit service. For those retirees who have commenced benefit payments, the death benefit is determined solely by the optional form elected by the participant.

Disability benefits are available for those participants who have completed 10 years of service at the time the employee is determined to be totally and permanently disabled. Disability benefit payments are based upon the employee's accrued benefit assuming the participant continued employment to normal retirement age, up to a maximum of 30 years. There is also a minimum monthly benefit equal to \$90 multiplied by the years of benefit service not to exceed five years of benefit service.

2) Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial

Notes to Financial Statements December 31, 2013 and 2012

present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risk and Uncertainties

The Plan invests in various investment securities. Investments in general are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is reasonable possible that changes in the values of investments will occur in the near term and that such change could materially affect the participants' account balances and amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Funding Policy

The Community's funding policy is to make annual contributions to the Plan in amounts that are estimated to remain a constant percentage of employees' compensation each year such that all employees' benefits will be fully provided for by the time they retire.

The Community's contributions for 2013 and 2012 exceeded the minimum funding requirements of ERISA.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes to Financial Statements December 31, 2013 and 2012

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Community, as provided by the Plan document. Expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses reduced investment income presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated for recognition or disclosure in these financial statements through October 14, 2014, the date which the financial statements were available to be issued.

Effective January 1, 2014, the Plan was restated to be a governmental tax qualified retirement plan maintained for the benefit of Community employees engaged in the performance of essential governmental functions. As a result of the restatement, the Plan will no longer be subject to the annual Form 5500 filing requirements under ERISA.

Effective January 1, 2015, the Plan was amended to limit participation to employees that are Community members, and non-Community members who have 10 years or more of service with the Community. However, employees that are non-Community members with 10 years or more of service will not accrue additional benefits after December 31, 2014.

3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on participant's compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included; to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary from Towers Watson and is the amount that results from applying actuarial assumptions to adjust the

Notes to Financial Statements December 31, 2013 and 2012

accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial valuations were made using the Traditional Unit Credit Cost Method.

The significant actuarial assumptions used in the valuations as of December 31, 2012 (since the Plan uses the beginning of the year as its benefit information date) were a) life expectancy of participants (the mortality basis for non-disabled participants were the assumptions under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants. The mortality basis for disabled participants were those described in Revenue Ruling 96-7.), b) retirement age assumptions (retirement at various ages assumed from age 55-75, with an average age of 60.3), and c) an estimated rate of return on investments for 2013 and 2012 of 6.43% and 7.14%, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Plan uses the beginning of the year as its benefit information date. The actuarial present value of accumulated plan benefits as of January 1, 2013, is as follows:

| Vested accumulated plan benefits | |
|--|-------------------|
| Participating employees | \$ 64,463,743 |
| Participants with deferred benefits | 35,297,031 |
| Participants receiving benefits | 63,083,262 |
| Total vested accumulated plan benefits | 162,844,036 |
| Nonvested accumulated plan benefits | 22,446,310 |
| Total actuarial present value of accumulated plan benefits | \$ 185,290,346 |

Notes to Financial Statements December 31, 2013 and 2012

The change in actuarial present value of accumulated plan benefits from prior year is as follows:

| Actuarial present value of accumulated benefits as of | |
|--|-------------------|
| January 1, 2012 | \$ 168,428,293 |
| Benefits accumulated | 8,439,726 |
| Actuarial gains | 3,092,498 |
| Decrease in the discount period | 12,971,012 |
| Actual benefits paid | (7,842,394) |
| Assumption changes | 201,211 |
| Net increase | 16,862,053 |
| Present value of accumulated plan benefits as of January 1, 2013 | \$ 185,290,346 |

4) Investments and Fair Value Measurements

The following presents investments that represent 5% or more of net assets available for benefits as of December 31, as indicated (*).

| | | 2013 | | 2012 |
|--------------------------------------|---|------------------|---|------------------|
| American Europacific Growth R6 | * | \$ 25,545,750 | * | \$ 15,558,576 |

| Dodge & Cox Income Fund | * | 15,556,608 | * | 12,920,284 |
| Western Asset Core Plus Bond CL I | * | 14,787,852 | * | 13,877,410 |
| First American Prime Obligation Fund | | 3,021,121 | * | 20,060,556 |

Notes to Financial Statements December 31, 2013 and 2012

The Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value during the years ended December 31, as follows:

| | | 2013 | 2012 |
|---|-----------|------------|------------------|
| Mutual funds | \$ | 26,402,096 | \$ 16,240,439 |
| Partnership/joint venture interests | | 1,873,082 | 768,335 |
| Net appreciation in fair value of investments | <u>\$</u> | 28,275,178 | \$ 17,008,774 |

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments without quoted market prices, but for which all significant inputs are observable, either directly or indirectly.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market: Primarily invests in direct obligations of the US Treasury, US Government Agencies, repurchase agreements and money markets with maturities of 13 months or less which have observable pricing inputs, including quoted prices for similar assets in active or non-active markets.

Notes to Financial Statements December 31, 2013 and 2012

Mutual funds: Shares of registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Partnership/joint venture interest: Shares in partnership/joint venture interest funds are valued using the net asset value provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is recorded at quoted market prices that are not readily active, but the significant outputs are observable.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

| 2013 | | | | Investments | | | | |
|------------------------------------|---------|-------------|----|-------------|---------|-------|-------------|--|
| | Level 1 | | | Level 2 | Level 3 | Total | | |
| Mutual Funds | | | | | | | | |

| Long-Short | | - | | 14,734,606 | | | 14,734,606 | |
| - | \$ | 167,389,470 | \$ | 14,734,606 | \$ | \$ | 182,124,076 | |

5) Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

The PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits in which employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are guaranteed only to the extent of the actuarial value of the vested benefit as of the date the Plan terminated, payable in the form of a straight life annuity commencing at age 65. For plan terminations occurring during 2013, that ceiling is \$4,789.77 per month for those

Notes to Financial Statements December 31, 2013 and 2012

pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later).

The provisions of the Plan provide that, if the Plan is terminated, Plan participants will receive an amount equal to the sum of accumulated contributions, if any, which are in excess of any retirement income previously paid. Also, Plan participants will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. Although it has not expressed any intent to do so, the Community has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

6) Tax Status

The Plan obtained its latest determination letter on July 2, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed, and is currently being operated in compliance, with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

7) Transactions with Parties-in-Interest

The Community provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged. Fees paid by the Plan to U.S. Bank, N.A., the custodian of the Plan, for investment management services are netted against net appreciation (depreciation) in fair value of investments.

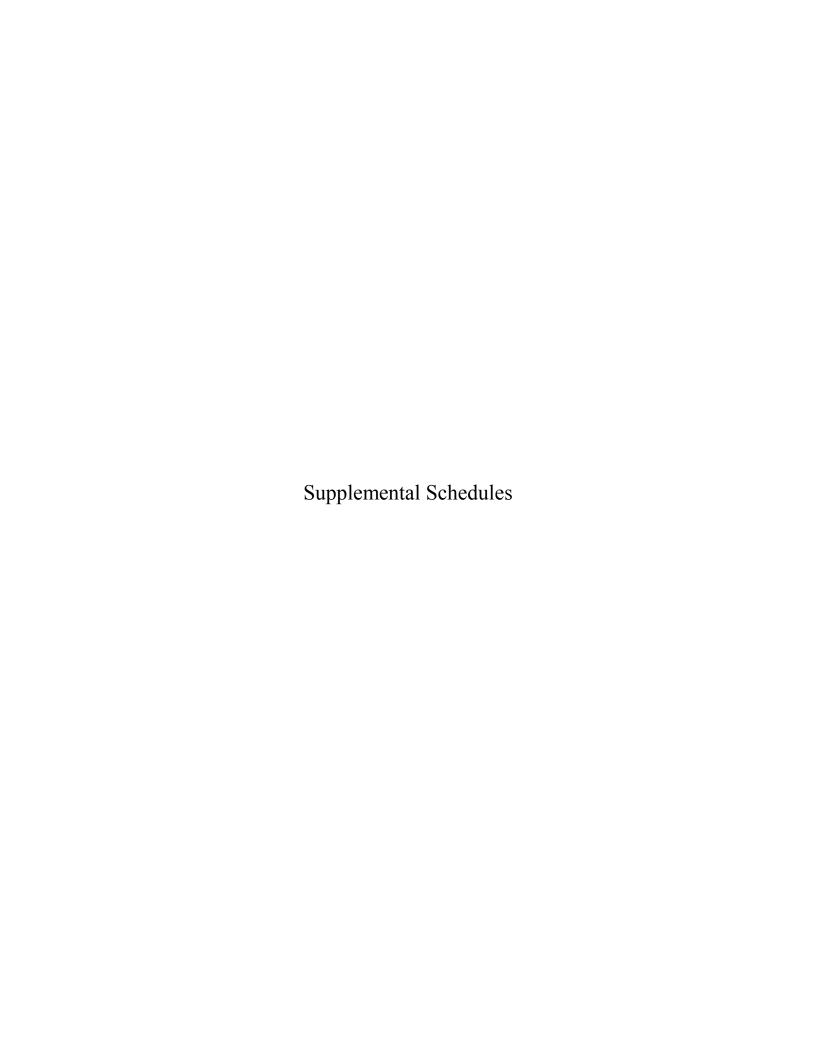

For the years ended December 31, 2013 and 2012, fees paid by the Plan for administrative expenses, such as third party administrative fees, PBGC premiums, actuary, attorney, and audit fees, were \$1,129,248 and \$814,406, respectively.

Notes to Financial Statements December 31, 2013 and 2012

8) Concentrations

The following investments represent concentrations of 10% or more of total investments at December 31:

| | 2013 |
|--------------------------------------|--------|

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and gender are shown below.

For those who have unreduced retirement benefits:

| Perce | entage retiring during the | year |
|-------|----------------------------|---------|
| Age | Males | Females |
| 55-64 | 15.0 | 15.0 |
| 65 | 30.0 | 30.0 |
| 66-74 | 15.0 | 15.0 |
| 75 | 100.0 | 100.0 |

Average retirement age is 60.3.

In addition, anyone over age 65 with 30 years of credited service is assumed to retire immediately.

Plan Sponsor Plan Name EIN/PN Gila River Indian Community

Retirement Plan for the Employees of the Gila River Indian Community 86-0107023/001

For those who have reduced retirement benefits:

| Perc | entage retiring during the | e year |
|------|----------------------------|---------|
| Age | Males | Females |
| 55 | 15.0 | 15.0 |
| 56 | 15.0 | 15.0 |
| 57 | 15.0 | 15.0 |
| 58 | 10.0 | 10.0 |
| 59 | 10.0 | 10.0 |
| 60 | 10.0 | 10.0 |

| 62 | 3.0 | 3.0 |
| 63 | 3.0 | 3.0 |
| 64 | 3.0 | 3.0 |

Average retirement age is 61.8.

For rates age 65 and over, see above.

Retirement decrements only applied to participants who are eligible for retirement.

Benefit commencement date:

 Preretirement death benefit On the death of the active participant.

 Deferred vested benefit The later of age 65 or termination of employment.

Disability benefit Upon disablement.

• Retirement benefit Upon termination of employment.

Form of payment Participants are assumed to elect the normal form.

Percent married 80% of males; 70% of females. Used to value pre-retirement surviving

spouse benefits.

Spouse age Wife three years younger than husband.

Plan Sponsor Gila River Indian Community

Plan Name Retirement Plan for the Employees of the Gila River Indian Community

EIN/PN 86-0107023/001

Covered pay Compensation assumed paid in the current year beginning on the

valuation date is the pay from the most recent year, rolled forward with

salary scale.

\$680,000. Administrative expenses

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month

and lump sum payments are payable on date of decrement.

Missing data assumption Missing salary information: For 12 Gila River Health Care Corporation

Mirror plan transferees, for whom salaries were not available, the salary

from the previous year was assumed.

Methods

Valuation date First day of plan year.

Present value of accrued benefits. **Funding target**

Target normal cost Present value of benefits expected to accrue during plan year

plus plan-related expenses expected to be paid from plan

assets during plan year.

Actuarial value of assets Average of the fair market value of assets on the valuation

> date, 12 months and 24 months prior to the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the

effective interest rate for the 2012 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Plan Sponsor Gila River Indian Community

Plan Name Retirement Plan for the Employees of the Gila River Indian Community

EIN/PN 86-0107023/001

Benefits not valued All benefits described in the Plan Provisions section of this

report were valued.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lumps sums are not explicitly valued as such; rather such participants benefits are valued using the benefit choice assumptions described

above.

Change in assumptions and methods since prior valuation

Other than the prescribed changes in mortality and interest rates, no other changes in assumptions were made as part of

this valuation.

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted on March 7, 2012 and effective January 1, 2012.

Covered employees First day of the month following the completion of one year of

eligibility service and the attainment of age 21.

Participation date Must be employed in regular employment in a covered group.

Definitions

Vesting service An employee will receive one year of service for each computation

period during which he completes 1,000 hours. A computation

period is a plan year.

Pension service Number of years (and fractional years) equal to the sum of all

calendar months from January 1, 1971 to the date of calculation in

which the employee receives compensation divided by 12.

Pensionable pay Code §3401 compensation that is actually paid during the calendar

year.

Average earnings Average earnings are equal to the average of the highest five

years of earnings during the last ten calendar years not including years in which the participant terminates employment or does not

work during both January and December.

Normal retirement date (NRD) First day of the month following the attainment of age 65.

Monthly pension benefit 3% of average earnings plus .5% of average earnings in excess of

covered compensation, all times years of service completed after

January 1, 1971 (maximum 30).

There is also a minimum monthly benefit equal to \$450. For those who become participants on or after January 1, 2003, this benefit

accrues at \$90 per year for five years. Effective January 1, 2009,

no additional minimum benefit is accrued.

Monthly preretirement death

benefit

Actuarial equivalent value of termination benefit, or, if married, the value of the Qualified Pre-Retirement Survivor Annuity, if larger.

Plan Sponsor Gila River Indian Community

Plan Name Retirement Plan for Employees of the Gila River Indian Community

EIN/PN 86-0107023/001

Eligibility for Benefits

Normal retirement Retirement on NRD.

Early retirement Age 55 and ten years of vesting service, or Age 60 and five years

of vesting service, if hired prior to January 1, 2002.

Postponed retirement Retirement after NRD.

Vested terminationTermination for reasons other than death or retirement after

completing five years of vesting service.

Disability Completion of ten years of Credited Service if employee is totally

and permanently disabled.

Preretirement death benefit Upon death after five years of vesting service.

Benefits Paid Upon the Following Events

Normal retirement Monthly pension benefit determined as of NRD.

Early retirement The Accrued Benefit reduced by 1/15 for each of the first 5 years

and by 1/30 for each of the next 5 years by which the starting date of the retirement pension precedes Normal Retirement Age. The reduction in the previous sentence is not applied (i.e., the benefit is unreduced) if the participant is at least age 55 with at least twenty years of vesting service. There is also a minimum monthly benefit equal to \$450. For those who become participants on or after February 1, 2003, this benefit accrues at \$90 per year for five years. For those who become participants on or after May 1, 2005, the minimum benefit accrued after May 1, 2005 is reduced in the same manner as the Accrued Benefit above. Effective January 1, 2009, no additional minimum benefit is accrued.

Postponed retirement Greater of: 1) Actuarial Equivalent of Accrued Benefit at age 65.

2) Accrued Benefit at date of determination.

Plan Sponsor Gila River Indian Community

Plan Name Retirement Plan for Employees of the Gila River Indian Community

EIN/PN 86-0107023/001

Vested termination Accrued normal retirement benefit payable at age 65. There is

also a minimum monthly benefit equal to \$450 payable at retirement. For those who become participants on or after February 1, 2003, this benefit accrues at \$90 per year for five years. For those who become participants on or after May 1, 2005, the minimum benefit accrued after May 1, 2005 is reduced in the same manner as the Accrued Benefit above. Effective January 1, 2009, no additional minimum benefit is accrued.

Disablement Benefit Before Normal Retirement: The Normal Retirement

Benefit with service to age 65, maximum 30 years, is payable

immediately.

Benefit After Normal Retirement: The Accrued Benefit is payable

immediately as a 10 Year Certain and Life.

Preretirement death Monthly preretirement death benefit payable on behalf of an active

employee is reduced 1/15 for each of the first 5 years and by 1/30 for each of the next 5 years by which the starting date of the retirement pension precedes Normal Retirement Age. There is also a minimum monthly benefit equal to \$450. For those who become participants on or after February 1, 2003, this benefit accrues at \$90 per year for five years. For those who become participants on or after May 1, 2005, the minimum benefit accrued after May 1, 2005 is reduced in the same manner as the Accrued Benefit above. Effective January 1, 2009, no additional minimum

benefit is accrued.

Other Plan Provisions

Forms of payment Life Only Annuity

Joint and 50% Contingent Joint and 75% Contingent Joint and 100% Survivor 10 Year Certain and Life

Lump Sum (if present value is less than \$5,000)

Pension Increases None.

Plan participants' contributions None.

Plan Sponsor Gila River Indian Community

Plan Name Retirement Plan for Employees of the Gila River Indian Community

EIN/PN 86-0107023/001

Maximum on benefits and pay All benefits and pay for any calendar year may not exceed the

maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for

determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

2013 Form 5500 Other Attachment

<u>Plan</u>: Retirement Plan for the Employees of the Gila River Indian Community

EIN: 86-0107023

<u>PN</u>: 001

In accordance with Section 906 of the Pension Protection Act of 2006, the above referenced Indian Tribal Government Plan was amended effective January 1, 2014 to accurately reflect its status as a governmental plan under IRC §414(d). The sponsor made annual Form 5500 filings for the Plan, on a voluntary basis, for Plan Years prior to and including 2013. No Form 5500 filing made by the sponsor with regard to the Plan prior to the publication of final guidance under Section 906 of the Pension Protection Act of 2006 shall constitute a waiver of the Plan's governmental status nor shall it constitute a waiver of the sovereign status of the sponsor. Effective as of January 1, 2014, no additional Form 5500 filings will be made. Therefore, the sponsor is filing a final Form 5500 for Plan Year 2013.

SCHEDULE SB ATTACHMENTS

Schedule SB – Statement by Enrolled Actuary

Plan Sponsor Gila River Indian Community

EIN/PN 86-0107023/001

Plan Name Retirement Plan for the Employees of the Gila River Indian Community

Valuation Date January 1, 2013

Enrolled Actuary Brent Henningson

Enrollment Number 14-07349

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.
